## Medical.

F A C T S.

In this paper we present to the public unimpeschable testimony establishing the facts that RADWAY'S READY RELIEF, REGULATING PILLS and RENOVATING RESOLUTION. VENT, are not only positive curatives of the sick afflicted with disease, but that they have in many cases proved to be infallible, and have restored the dying patient to robust health after all other means of medication failed.

"In October, 1855, my wife giving birth to a child, left her bed too early and caught a severe coid, which promises to terminate her life. The best physicians in this neighborhood and Kingston were in attendance on her, but all to no avail—the doctors land given her up to die. For seven consecutive weeks I sat at her bedside, momentarily watching to see her breathe her last. I happened to see a copy of your paper, called The Moving World, and there read of your nedictines. I resolved to test them as and there read of your medictines. I resolved to test them as all set secord. I gave her the Resolvent, with the Regulators and Relief, according to directions, and in three days.

OEREVED A WONDERFUL IMPROVEMENT.

From this, she daily recovered, and is now, thank God, better than ever she was in her Hie.

"The child, when three menths old, caught a bad cold, and dwindled away to a nerse skeleton—nothing but bome and skin, his eyes protrated from his bead as if they would drop out. The physicians all united in asying there was no nee in attempting to ave kinn; his case was hopeless, as he was too young, and must also him, his case was hopeless, as he was too young, and must die. Eut I thought differently. Your remedies cave life to my wife, lwidt the doctors gave her up to death. I again had recourse to them. I gave him my Resolvent internally, and used it as a wask, externally, to his eyes—he is now a hearty, pratifing child, enjoying the beat of health.

OAK ORCHARD ACID SPRINGS,-These

Springs are situated in the valley of the Oak Orchard Crock, in the town of Alahana, Genesic County, N. Y., eight niles south of the village of Medina, on the Eric Canal, and fourteen miles from Batavia. is from Batavia.

In the Principal Acid Springs are three in number; beside these are six others. They are all located within a circuit of titiy reds. The medicinal qualities of the waters are fully in in the subjoined testimonials. They contain a very large ant of Stiphur, Suphuric Acid, Suphate of Lime, and e-Sulphate of Iron. The great medicinal virtues possessed be waters depend very largely upon the presence, in such and quantities, of these curative substances, modified of cases of disease, especially these resulting from acrofulous diathesis, have been cured by their use.

\*kin diseases—even in confirmed Leprony—the waters have signally successful.

Hundred of cases of disease, especially thase resulting from the scrotulous diathesis, have been cured by their use.

In kin disease—even in confirmed Leprosy—the waters have been signally successful.

Cpinions of medical and scientific gentlemen are given in the circulars. The following endicate gentlemen are given in the circulars. The following endicate gentlemen are given in the circulars. The following endicate gentlemen speak in strong terms of the medicinal value of these waters. Prof. Emmons. T. Romeys Buck, M. D., of Albany, Jas. McNaughton, M. D., of Albany; Edward Spring, M. D., of New York, Dr. R. Campbell of Pittsnield, Mass., Jr. J. S. Shuler of Lockport, N. Y. They recommend the waters confidently. Dr. Spring refers to a case of Chronic Diarrhea of several years' standing, which was cared by the use of the water. Dr. Beck says: "I am satisfied that these waters are highly valuable as medicinal spents." Dr. Campbell says: "They must be highly beneficial for all chronic diseases of the stomach and bowels."

Dr. S. P. White read a paper on the subject of these Waters before the Academy of Physicians, in the City of New-York, in which he states that the Waters possess decidedly tonic, refrigerant, and astringent properties; and that the class of diseases to which they are more particularly adapted, are chronic affections of the Digastive and Urfnary Organs, and some of the Cutaneous Diseases; Chronic Dysentery: Chronic Diseases; Chronic Cystitis; Diabetes; cases of possive hemorrhage, ench as Parpora Hemorrhagies, and the colliquative sweats of Hectic Fever. The Water may also be often used with advantage, he says, in cases of low Typhold Fevers; in convalencence from protracted fevers, to excite the appetite and promote digastion; to Distract, particularly such as are dependent on a relaxed alternated state of the microus membrane of the intentions. In Calculous affections, or Lichiasis, attended with phosphain sediments, it is the suitable remedy, being preferable to morianic acid, as being more so

Piles.

When taken internally, a wine-glaseful of the Water, dilated, taken three times a day, is sufficient for an adult.

Other testimonials from physicians, and other respectable individuals may be seen on application to the Agent.

list generally, and checks the disposition operate. There is, however, an undertone of strength, partly growing out of the operations of outside speculators, and the prominent bear jobbers evinced little or no disposition to act with any energy. Some of the minor bears put out small lines, but did not produce much effect. Between the Boards the market was inactive, and had a downward tendency. At the Second Board there was more disposition to operate, and an improvement in prices was established in some descriptions, the market closing firm. At the morning session the firmest stocks were Harlem Preferred, IIlinois Central, Michigan Central, and Burlington and Quincy. The latter was in active demand, and sold up to 79, against 77 yesterday. It was, after the orders were filled, rather heavy, and sold as low as 78, closing at 784 bid. Hudson River sold at 49, but improved at the Second Board to 494 bid. Harlem Preferred, although not active, was sustained throughout the day at 41. Erie was heavy at the opening, but became stronger as the call proceeded. It left off at 22, the price of yesterday. Pacific Mail continues to ductuate violently under the various rumors with which the street is kept agitated. It opened at 874, seld down to 87, and afterward in the street as low as 84. From this point it recovered to 86, and finally left off at 854 bid. The dividends upon 39,500 shares have now been paid, and the officers of the Company state that no fraudulent certificate has yet been pre-sented. This would certainly confirm the theory that there is no fraudulent stock alloat. The examination of the Stock Ledger is still going on, and namerous discrepancies, the result of careless bookkeeping, bave been found. Some parties have more stock in their names than they own, while others have less. We know of three stock houses who have in the aggregate about 450 shares more than they claim, and which they will cancel. The apparent overissne is now re-ported to be less than 1,800 shares, but whether it is really anything, or if anything how much, cannot be known until the examination at present going on is closed. Panama is quiet at about 1331 under the dis appointment in regard to the New-Granadian negotia tions. The new grant for opening the Nicaragua Transit route received here recently may possibly have had some influence in depressing this stock. This grant was made to the old Canal Company, and is now grant was made to the on Cann company, and is also in the hands of Secretary Cass for his approval. If he approves it, it will be sent to Nicaragua for ratification by Congress, under whose advice it was made. It relieves the Canal Company from the obligation to build the Canal or railroad, and former taxes, gratuities, &c. They are simply required to open any kind of transit they please, make the river within a certain period navigable for boats drawing sixteen inches of water, and to pay a duty of \$1 50 per pas senger to the State. The Company have recently bought the San Carlos and Virgin on the Lake, the remaining river boats, piers, &c., for \$35,000, payable in annual installments of \$5,000. The earnings of the Burlington and Quincey Road for freight and passengers for the first seventeen working days of May, 1860, (exclusive of \$6,200 received for tickets sold at reduced rates to persons attending the Republican Convention at Chicago) have been \$148,265 64, against \$79,205 30 the corresponding period last year, showing a gain of \$69,060 34, with every indication of the same ratio of increase for the remainder of the month. The receipts of Corn by this read into Chicago now average about 50,000 bush. per day. The earnings of most of the roads centering in Cincinnati will show a very material gain in the month of May this year as compared with the same month last year. The Summer pleasure travel from the South already begins to show itself in the business of the Ohio and Mississippi Railroad. The earnings of this road for the first week in May, show an increase of \$4,000 over the corresponding week last year, and the second week will do still better. The earnings of the Indianspolis and Cincinnati Railroad for the first two weeks in May, show an increase of \$2,800 in freight, and \$1,300 in passengers; a total of \$4,100 over the corresponding two weeks in May last year. We should not be surprised to see the earnings for May this year foot up \$10,000 increase over May, 1859. The road is in excellent order and capable of doing any amount of business. The earnings of the Little Miami for the first two weeks of May wid probably show a slight increase over the same time last year. The earnings of the Cincianati, Hamilton and Dayton for the first two weeks will vary but little if any from the first two weeks of May last year. The Marietta Road will show a fair increase in both passengers and freight. We understand that a very ma-terial improvement is noticeable in the through passenger travel of this road since the first of the month, The passenger and freight earnings of the Dayton and Michigan will exhibit a very satisfactory result for the month of May.

The claim of Mr. Titus was to one-lifth of the whole stock of the Company, by virtue of a contract made by him as President of the Baltimore Mining Company with the Vulcan Mining Company, which he claims was subsequently converted into and now constitute the Minnesota Mining Company. The trial has been before the full Bench, but Judge Campbell did not participate in the case before his election to the Bench. The opinion of the Court was delivered by Justice Manning, Judge Christiancy concurring. Judge Martin dissented, reading a separate opinion, holding, in opposition to his associates, that the bill was sufficient in respect to the parties, at least as no objection was made by demurrer, and that the case made by the bill was clearly sustained by the proof, and that the complainant was entitled to the decree prayed for by the bill.

The Philadelphia Ledger of this morning says that the County of Allegheny is in default in its payments to the State of Pennsylvania, as well as a contestant in the courts of its obligations under its issue of Railroad bonds. It savs:

road bonds. It says:

It seems that in 1858 three mills of State tax was levied in that county, but owing to the dissatisfaction expressed, and the refosal of a great may to pay, alleging the levy to be exorbitant, the Commissioners reduced it to 24 mills. It now appears that the county is incepted to the Commonwealth #18,765 58, the amount of the deficiency in the assessment of State tax for 1858 and 1859. On the discovery of this fact the State Treasurer has written the Commissioners of the County a sharp letter, requesting prompt payment of the deficit, and calling attention to the fact that the State appropriates to various institutions within the county over \$90,000 annually. The Dispatch says: "The deficiency will have to be paid out of the funds realized by the present assessment of 10 mills for county purposes."

In the United States Court at Pittsburgh on Saturpay, before Judge McCandless there was an argument upon the rule to show cause why attachments should not issue against the Commissioners of Lawrence for contempt in refusing to obey the writ of mandamus issued in January, commanding them to pay the judgment (\$1,811) of David Pollock, for interest on railroad bonds issued by the county out of moneys unappropriated, or the first received into the Treasury. The Judge took the papers and will give his decision in a few days.

UNITED STATES CIRCUIT COURT-May 24-Before Judge SMALLEY.
THE HICKS PIRACY CASE—MOTION FOR ARREST OF JUDGMENT.

This morning the counsel for Albert W. Hicks filed with the Clerk the following reasons in arrest of judg-

ment upon the prisoner:

I. That there is no sufficient averment in the first count in the indictment, that this Court has jurisdiction, and that the offense is not charged as having been committed "out of the jurisdiction

of any particular State."

II. The first count did not describe, with sufficient certainty, the articles alleged to have been taken piratically and feloniously by the defendant.
III. That the first count does not locate or in any way describe

the location where the alleged offense was committed or sup-posed to have been committed.

IV. That the second count did not allege that the offense there-in charred was committed on the "blgh seas," but does allege it to have been committed in the lower bay of the harbor of New-

ork. V. That the second count did not describe with sufficient cer-

V. That the second count did not describe with summand cer-tainty the money and other property alleged to have been taken by the defendant.

VI. That the second count did not contain the necessary legal averments to make it a second count.

VII. That the two counts were legally insufficient for mis-join-

er or non-joinder.
VIII. That there was but one continuous count in the indict VIII. That there was but one continuous count in the indict-ment, and that was insufficient and defective for duplicity. IX. That the indictalent charged, or pretended to charge, that the defendant committed two offences: one indictable under the laws of this State, and, therefore, not cognizable by his Court, and the other indictable under the statutes of the

United States.

X. That the offences charged in the indictments—if both were cognizable by the Court—were indictable and punish-able under two or more statutes; that there was no aver-ment that the offense or offences were against the form of the

Statutes."

XI. That the verdict was general, and therefore irregular, as it

xis impossible for the defendant to know of what he was found

On the above points the defendant prays that the verdict te ret aside, and a new trial granted.

John Shaw agt. Jeremiah Higgins.

This was a suit brought by the planniff against the defendant to recover damages for standarous words, whereby plaintiff suffered higher. He appeared that Mr. Shaw had obtained a lease of the Government Hotel at Nassan, New-Providence, on condition that he entered into possession as soon as his ametics had been approved. This having been done, the plaintiff made extensive purchases of formitore and other articles necessary for the hotel, and took passage for himself and family in the steamer Karoak, in February last. The defendant, however, in the presence of the officers of the Karnak, stated that "Mr. Shaw was a thief, that he (Higgins) had sent him to the State Prisen, and that he (Shaw) had been a thief since he wore a yard of broadcloth." The effect of this stander was to induce the officers of the Karnak to pot Mr. Shaw and his good ashore, the officers of the Karnak to put Mr. Shaw and his good ashore, the officers of the Karnak to put Mr. Shaw and his good ashore, the officers of the Karnak to put Mr. Shaw and his good ashore, the filters of the Karnak to put Mr. Shaw and his good ashore, the Chicar of the Karnak to put Mr. Shaw and his good ashore, the Chicar has a midgation of damages, as no feal injury had been incurred. The Jury thought different, and rendered a verdict for he plaintiff for \$2,500.
